

CDPT-1 Detailed Documentation Outline

CardanoSharp Documentation

1. **A Beginner's Guide to CardanoSharp**: Introductory guide for beginners to understand and start using CardanoSharp.
2. **Cardano Native Tokens with CardanoSharp**: Detailed documentation on handling native tokens using CardanoSharp.
3. **CardanoSharp**: General overview and documentation of the CardanoSharp library.
4. **A .NET Developer's Guide to Minting NFTs on Cardano**: Step-by-step guide for .NET developers to mint NFTs using CardanoSharp.
5. **Cardano Multisig Addresses**: Documentation on creating and managing multisig addresses using CardanoSharp.
6. **The Process of UTxO Selection**: Explanation of the UTxO selection process within CardanoSharp.
7. **CBOR Implementation in C#**: Detailed documentation of the Concise Binary Object Representation (CBOR) implementation in C#.
8. **Chaos.NaCl Cryptography Library**: Information about the Chaos.NaCl cryptography library used in CardanoSharp.
9. **CardanoSharp Blazor**: Documentation on integrating CardanoSharp with Blazor.
10. **CardanoSharp Blockfrost**: Guides and references on using CardanoSharp with Blockfrost API.
11. **CardanoSharp Unity**: Instructions for using CardanoSharp within Unity applications.
12. **CardanoSharp Wallet**: Overview and details about the CardanoSharp Wallet library for .NET applications.
13. **CardanoSharp GitHub**: Documentation and resources available on the CardanoSharp GitHub repository.
14. **cscli**: Documentation for the cross-platform CLI for interacting with Cardano data structures using CardanoSharp.
15. **Creating Addresses**: Guide on creating addresses with CardanoSharp.
16. **Deriving and Creating Keys**: Detailed instructions for deriving and creating keys using CardanoSharp.
17. **Getting Started with CardanoSharp**: Introductory guide to getting started with CardanoSharp.
18. **Mnemonics**: Documentation on using mnemonics with CardanoSharp.
19. **Jupyter Notebooks**: Examples and tutorials using CardanoSharp in Jupyter notebooks.
20. **How-to Tutorials**: Step-by-step tutorials for creating and restoring wallets, generating addresses, and safely storing wallets with CardanoSharp.

GitHub API Documentation

1. **General GitHub API Documentation:** Detailed information and guides on various aspects of the GitHub API, including authentication, best practices, and endpoint specifics.
2. **API Versions:** Information on different versions of the GitHub API.
3. **OpenAPI Description:** Overview of the OpenAPI description for the GitHub REST API.
4. **REST API Endpoints:** Comprehensive list of available endpoints for various GitHub services like issues, commits, repositories, actions, and more.
5. **Best Practices:** Recommended best practices for using the GitHub REST API.
6. **Troubleshooting and Error Handling:** Guides on troubleshooting and handling errors while using the GitHub API.
7. **Comparing REST and GraphQL APIs:** Comparison of GitHub's REST API and GraphQL API.
8. **Using CORS and JSONP:** Information on making cross-origin requests using CORS and JSONP.
9. **Scripting with GitHub API:** Guides on scripting with the GitHub API using JavaScript and Ruby.

Unreal Engine Documentation

1. **Unreal Engine 5.x Documentation:** Extensive documentation on various features and tools in Unreal Engine 5.x, including:
 - **Abilities in Lyra:** Information on implementing abilities in the Lyra sample game.
 - **Actor Mobility:** Details on actor mobility settings.
 - **Animation and Asset Management:** Guides on managing animations and assets.
 - **Blueprints and Scripting:** Documentation on visual scripting with Blueprints and scripting with C++.
 - **Multiplayer and Networking:** Instructions on setting up multiplayer and networking features.
 - **Subsystems and Plugins:** Information on using various subsystems and plugins within Unreal Engine.

Unity Documentation

1. **Unity User Manual:** Comprehensive user manual for Unity 2022.3 (LTS), covering various aspects like:
 - **Graphics and Physics:** Guides on graphics rendering and physics simulations.
 - **Scripting:** Information on scripting in Unity.
 - **UI and Audio:** Documentation on UI elements and audio management.
 - **VR and Platform-Specific Features:** Guides on VR development and platform-specific features.
2. **Unity Scripting API:** Detailed API reference for scripting in Unity, including analytics and other advanced features.

Documentation and Repositories

1. **Aiken Documentation:** JSON file containing documentation for Aiken, a software or library. [View JSON](#)
2. **Aiken Repository:** JSON file containing repository information for Aiken. [View JSON](#)
3. **AWS EC2 Instance Documentation:** JSON file with detailed documentation for AWS EC2 instances. [View JSON](#)
4. **Blockfrost Cardano CLI Repository:** JSON file with repository information for the Blockfrost Cardano CLI. [View JSON](#)
5. **Blockfrost .NET Repository:** JSON file containing repository information for the Blockfrost .NET integration. [View JSON](#)
6. **Blockfrost JS Examples Repository:** JSON file with repository information for Blockfrost JavaScript examples. [View JSON](#)
7. **Blockfrost JS Repository:** JSON file with repository information for the Blockfrost JavaScript library. [View JSON](#)
8. **Blockfrost Swift Repository:** JSON file containing repository information for the Blockfrost Swift library. [View JSON](#)
9. **Blockfrost WebSocket Link UI Widget Repository:** JSON file with repository information for the Blockfrost WebSocket link UI widget. [View JSON](#)
10. **Blockfrost Documentation:** JSON file containing comprehensive documentation for Blockfrost. [View JSON](#)
11. **Blockfrost OpenAPI Repository:** JSON file with repository information for the Blockfrost OpenAPI specification. [View JSON](#)
12. **Cardano Developer Documentation:** JSON file with comprehensive documentation for Cardano developers. [View JSON](#)
13. **Cardano GraphQL Repository:** JSON file with repository information for the Cardano GraphQL integration. [View JSON](#)
14. **Cardano Wallet Repository:** JSON file with repository information for the Cardano Wallet library. [View JSON](#)
15. **Construct Game Engine Documentation:** JSON file with detailed documentation for the Construct game engine. [View JSON](#)

16. **CSS Documentation:** JSON file containing comprehensive documentation for CSS.
[View JSON](#)
17. **Demeter Run Documentation:** JSON file with detailed documentation for Demeter Run.
[View JSON](#)
18. **Dex Hunter API Documentation:** JSON file containing documentation for the Dex Hunter API. [View JSON](#)
19. **Discord Developer Portal Documentation:** HTML file for the Discord Developer Portal documentation intro. [View HTML](#)
20. **Discord Developer Documentation:** JSON file with comprehensive documentation for Discord developers. [View JSON](#)
21. **Dolos Node Documentation:** JSON file with detailed documentation for Dolos Node.
[View JSON](#)
22. **HTML Cheat Sheet:** PDF file with a cheat sheet for HTML. [View PDF](#)
23. **Iagon Documentation:** JSON file with detailed documentation for Iagon. [View JSON](#)
24. **LibCardano C++ Repository:** JSON file with repository information for the LibCardano C++ library. [View JSON](#)
25. **Maestro Documentation:** JSON file with comprehensive documentation for Maestro.
[View JSON](#)
26. **Maestro TypeScript SDK Repository:** JSON file with repository information for the Maestro TypeScript SDK. [View JSON](#)
27. **MeshJS Documentation:** JSON file with comprehensive documentation for MeshJS.
[View JSON](#)
28. **MeshJS Repository:** JSON file with repository information for MeshJS. [View JSON](#)
29. **DripDropz Instant Rewards Allocation Script:** JSON file with an open-source script for instant rewards allocation by DripDropz. [View JSON](#)
30. **Top 10 Leaderboard Decay Script (JSON):** JSON file with an open-source script for top 10 leaderboard decay. [View JSON](#)
31. **Top 10 Leaderboard Decay Script (PHP):** PHP file with an open-source script for top 10 leaderboard decay. [View PHP](#)
32. **PlayFab API Reference Documentation:** JSON file with detailed API reference documentation for PlayFab. [View JSON](#)
33. **PlayFab Documentation:** JSON file with comprehensive documentation for PlayFab.
[View JSON](#)

34. **React Developer Documentation:** JSON file with comprehensive documentation for React developers. [View JSON](#)

35. **Wanchain Documentation:** JSON file with detailed documentation for Wanchain. [View JSON](#)
